First published in 2015[1], the Asia Pacific Regional Internet Governance Forum (APrIGF) Synthesis Document aims to identify items of common interest and relevance to Internet governance within the Asia Pacific region. Building on the momentum of the inaugural APrIGF Synthesis Document from APrIGF 2015 Macao, the process for the 2016 Synthesis document has expanded with an open call for contributions[2] and two public comment periods[3] to collect wider input from the Asia Pacific Internet community across all stakeholder groups to build a more comprehensive and inclusive document.
