Universal Acceptance IDN ccTLDs in ccNSO

Anticipate joint effort of ICANN and community on Universal Acceptance (IDN) TLDs

- Joint ccNSO-GNSO IDN WG report on Universal Acceptance of IDN TLDs

- Recommendations:
  - IDN TLD operators support Universal Acceptance of IDN TLDs
  - Advocacy of Universal Acceptance
  - Develop of informative reference materials
  - Studies to investigate the scope of the issue and further actions
Framework of Interpretation

– In detail discussion later this afternoon
Financial Contributions

• ccNSO Finance WG closed in BA
• Mandate
  – Model and mechanism for Allocation of ccTLD’s related Expenses
  – Distribution model
• Goal: voluntary, agreed, predictable and sustainable model for contribution
Conceptual Value Categories

**Specific**
- Easily Identifiable
- Direct support of the ccTLD’s
- Benefit exclusively the ccTLD’s

**Shared**
- Shared resources for shared benefit
- Not directly accountable to ccTLD’s
- Tangible matters

**Global**
- Support of the Internet eco-System
- Support of the global infrastructure
- Subjective matters
Financial Contributions

ccTLD total voluntary contribution = US$ 3.5 million

Council adopted new Guidelines:

- Voluntary contribution
- Banded Model
- ICANN to Approach ccTLDs (no further role ccNSO)
