GDPR essentials

October 2018, APTLD meeting, Tashkent
ESSENTIALS – EUROPEAN CCTLD PERSPECTIVE

• No _common_ European ccTLD solution exists
• A common solution for APTLD members? - worth a try!

• Collect only data needed to fulfil your contract
  • Full registrant data set
  • No admin, tech, zone data from registrars
  • => Data minimization renders compliance in the future

• Publish (whois) what you collect
• Newly introduced procedure preserves admin-c functionality, “defused” new contact type preserves tech-c functionality
• Manual and automated tiered access/ legitimate interest evaluation

• Challenges:
  • Journalists, consumers, consumer protection organisations, LEA
