Define the problem

• How to encourage registration growth?
• How to consolidate your market position before hundreds of new TLDs enter the market?
• How to make your ccTLD more relevant to its core target audience?
1. Know your audience

Registrants

• Who are they and what do they want?
  – Conduct research

• How to position your ccTLD over other options?
  – National pride
  – Trusted by local market
  – .com is full!
  – Re-purposed – niche global market
2. Respect your channel

Registrars

• Incentivise them to promote your ccTLD
• Prepare campaigns for them to run
• Give them great service
• Send them leads
• Encourage new registrars
3. Anchor tenants

- High-profile local businesses
- Major local media
- Cultural figureheads
  - Build a PR campaign around their use of your ccTLD
- URL shorteners
  - Global awareness opportunities
  - Create your own?
4. Encourage Registrant Utilisation

• Promote high-quality sites using your domain
  – Website of the week/month competition
5. Create a ccTLD identity

• Focus on the ccTLD as a brand, not just the Registry organisation
